Dry Basement Guaranteed

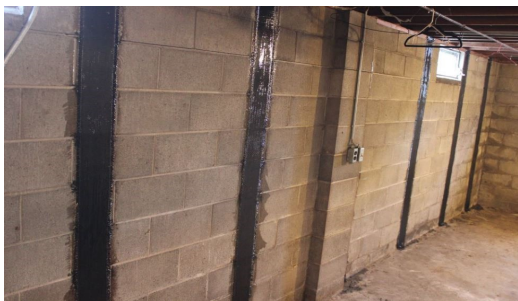

SafeBasements™ basement waterproofing products are designed to make basements dry, and comfortable. Our basement waterproofing systems protect against all entry paths of water into your basement and foundation area.

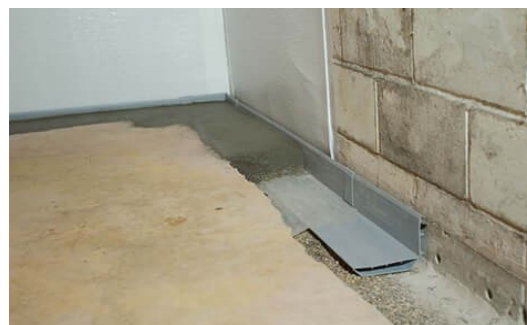

Safe Basin

Foundation Repairs

Typical Installation

The SafeBasements™ Premium Waterproofing System utilizes the SafeDrain™ and the most energy efficient and powerful primary, and backup sump pump systems. The use of multiple premium products along with engineering forethought ensures a Stable Foundation along with clean healthy air to breathe for your basement area.
